Introductory Notes

Some data used in this 1999 *Resource Document* are preliminary, estimated or projected, and as such are subject to revision in next year's edition. Likewise, some data have been revised compared to last year's edition.

When a table combines data obtained from different sources, effort is taken to ensure that all data within the table are as comparable as possible and consistent with the purpose of the table. However, data may not always be identically reported between tables. For example, enrolment, financial or other data in one table may be based on a different set of institutions as the same data in another table. Please be sure to read the notes to each table, as well related appendices, when reviewing the tables.

For some tables, the content, sources of data, or methodologies used are different from the corresponding table in last year's edition of the *Resource Document*, and therefore may not be directly comparable.

Highlights of this Report ..... page xi-xiv

Section 1 - Grants and Revenue: The Ontario Picture

1.1 Provincial Operating Grants
And Tuition Fee Revenue
Ontario Universities
1987-88 to 2000-01 ..... page 2-3

1.2 Provincial Operating Grants
And Tuition Fee Revenue
Per FTE Enrolment
Ontario Universities
1987-88 to 2000-01 ..... page 4-5

1.3 Federal EPF and CHST Support of
Ontario Post-Secondary Education
1987-88 to 1999-00 ..... page 6-7

1.4 University Operating Grants
Compared to Total Provincial Budget
And Gross Provincial Product
Ontario
1987-88 to 1999-00 ..... page 8-9

1.5 Ratios of University Operating Grants,
Total Provincial Budget
And Gross Provincial Product
Ontario
1987-88 to 1999-00 ..... page 10-11

1.6 Income from Federal Grants and Contracts
Ontario Universities
1987-88 to 1997-98 ..... page 12-13

1.7 Income from Donations
And Non-Government Grants and Contracts
Ontario Universities
1987-88 to 1997-98 ..... page 14-15

Section 2 - Grants and Revenue: Jurisdictional Comparisons

2.1 Percent of University Operating Income
By Source of Income
Provincial Comparison
1987-88 to 1997-98 ..... page 18-19

2.2 Percent of Total University Income
By Source of Income
Provincial Comparison
1987-88 to 1997-98 ..... page 20-22

2.3 Provincial University Operating Grants
Per FTE Enrolment
Provincial Comparison
1988-89 to 1999-00 ..... page 24-25

2.4 Provincial University Operating Grants
Per Capita
Provincial Comparison
1988-89 to 1999-00 ..... page 26-27

2.5 Provincial University Operating Grants
Per $1000 of Total Provincial Personal Income
Provincial Comparison
1988-89 to 1998-99 ..... page 28-29

2.6 Revenue per FTE Enrolment
Public Universities
Ontario and Selected American States
1996-97 and 1997-98 ..... page 30-31

2.7 Expenditures per FTE Enrolment
Public Universities
Ontario and Selected American States
1996-97 and 1997-98 ..... page 32-33

2.8 Percent Change in Provincial and State Funding
For Operating Expenses of Post-Secondary Education
Canadian Provinces and American States
1994-95 to 1999-00 ..... page 34-36

Section 3 - Comparisons with Other Sectors

3.1 Operating Expenditures Per Client
Universities and Four Other Public Sectors
Ontario
1987-88 to 1997-98 ..... page 38-39

3.2 Operating Expenditures Per Client
Hospitals, Schools and Universities
Provincial Comparison
1996-97 ..... page 40-41

3.3 Social Welfare Benefits
Provincial Comparison
1998 ..... page 42

Section 4 - Research

4.1 Sponsored Research Expenses
Compared to University Operating Expenses
Ontario Universities
1987-88 to 1997-98 ..... page 44-45

4.2 Peer-Adjudicated Sponsored Research Grants (PASRG)
SSHRC + NSERC + MRC
Compared to Ontario Research Overhead/Infrastructure Envelope (ROIE)
Ontario Universities
1987-88 to 1999-00 ..... page 46-47

4.3 Sponsored Research Funding to Universities
SSHRC + NSERC + MRC
Provincial Comparison
1987-88 to 1997-98 ..... page 48-49

4.4 Gross Expenditure on Research and Development (GERD)
Ontario and the Group of Seven Industrialized Nations
1997 ..... page 50

Section 5 - Tuition Fees

5.1 Maximum Chargeable Tuition Fees
Bachelor of Arts Program
Ontario Universities
Compared to Average Personal and Family Income
1989-90 to 1999-00 ..... page 52-53

5.2 Tuition Fees
Selected Programs
Ontario Universities
1989-90 to 1999-00 ..... page 54-55

5.3 Tuition Fees
Bachelor of Arts Program
Selected Canadian Universities
Compared to Average Personal Income
1989-90 and 1999-00 ..... page 56-57

5.4 Tuition Plus Required Fees
Research and Doctoral Level Universities
Ontario and American Great Lakes States
Compared to Average Personal Income
1999-00 ..... page 58-59

Section 6 - Student Financial Assistance

6.1 Ontario Student Assistance Program (OSAP)
Ontario Government Student Support Program
1987-88 to 1999-00 ..... page 62-63

6.2 Scholarships and Bursaries
Compared to Total University Expenditures and Enrolment
Ontario Universities
1987-88 to 1997-98 ..... page 64-65

6.3 Ontario Student Assistance Program (OSAP)
Loan Default Rates by Sector
1996 to 1999 ..... page 66-67

Section 7 - University Infrastructure

7.1 Library Expenditures
And Related Comparisons
Ontario Universities
1987-88 to 1997-98 ..... page 70-71

7.2 Ministry of Education & Training Capital Funding
Compared to Capital Expenditures at
Ontario Universities
1987-88 to 1997-98 ..... page 72-73

7.3 University Capital Expenditures
Per FTE Enrolment
Provincial Comparison
1988-89 to 1997-98 ..... page 74-75

7.4 University Capital and Plant Related Indicators
Provincial Comparison
1988-88 to 1997-98 ..... page 77

7.5 Inventory of Physical Space
Compared to Generated Space
Ontario Universities
1986-87 to 1998-99 ..... page 78-79

Section 8 - Faculty and Staff

8.1 Faculty and Staff
Compared to Enrolment
Ontario Universities
1987-88 to 1998-99 ..... page 82-83

8.2 Salaries and Wages
Compared to Enrolment
Ontario Universities
1987-88 to 1997-98 ..... page 84-85

8.3 Employee Benefit Costs
Compared to Salaries and Wages
Ontario Universities
1987-88 to 1997-98 ..... page 86-87

8.4 Average Class Sizes for Elementary and Secondary Schools
Student / Faculty Ratios for Colleges and Universities
Ontario
1987-88 to 1998-99 ..... page 88-89

8.5 FTE Enrolment per Full-Time Faculty
Canadian Universities
Provincial Comparison
1987-88 to 1997-98 ..... page 90-91

8.6 FTE Enrolment per FTE Faculty
Canadian Universities
Provincial Comparison
1987-88 to 1997-98 ..... page 92-93

Section 9 - Education and Employment

9.1 Unemployment Rate
By Educational Attainment
Ontario and Canada
1990 to 1999 ..... page 96-97

9.2 Percent of Total Employment
By Educational Attainment
Ontario
1990 to 1999 ..... page 98-99

To the Reader of this Report

The 1999 edition of the Council of Ontario Universities' annual *Resource Document* provides a comprehensive review of statistics and trends relevant to Ontario universities across a range of policy areas including grants and revenue, jurisdictional comparisons, comparisons with other sectors, research, tuition fees, student financial assistance, university infrastructure, faculty and staff, and education and employment.

Context for the Resource Document

This review of statistics and trends is important given that Ontario is on the verge of experiencing the greatest increase in demand for university opportunities in 30 years. Predictions indicate that enrolments in this province are likely to swell by up to an additional 90,000 or 40% within the next ten years.

Enrolment is expected to increase dramatically owing to the following factors:

- secondary school reform in Ontario designed to allow many more students to graduate from high school in four years instead of five will create a "double cohort" of high school graduates requiring entrance to university as early as 2003,
- an increase in the population of 18-24 year olds,
- a projected increase in the participation rate or percentage of 18-24 year olds attending university,
- a trend towards more adult learners attending university for additional studies.

Polling conducted by Angus Reid clearly indicates that Ontarians agree with the principle that all qualified students will have the opportunity to receive a university education of a quality that is at least comparable to that offered in competing jurisdictions.

Meeting these expectations will require a major investment by the people of Ontario. The pressure to respond to public expectations and student demand will be strongest at precisely those points where the grant reductions of the 1990s have left universities most vulnerable – in faculty numbers, physical capacity to accommodate increased enrolment, and facilities and resources for teaching, learning and research.

Considerable effort is being taken to help ensure that every qualified and motivated student will be accommodated. Senior-level representatives from the postsecondary community and government have been meeting regularly to consider the most cost-effective ways of responding to the projected major expansion in enrolment.

It is clear that the funding requirements will be significant and that the challenge extends beyond the provincial government. Reductions in federal transfer payments in the 1990s have further reduced the resources available to the provincial government for funding universities, and an increase in federal transfer payments would obviously

place the Government of Ontario in a much better position to finance the necessary investment to expand our university sector.

Highlights of this Report

Section 1 - Grants and Revenue: The Ontario Picture

- Provincial operating grants to Ontario universities are estimated to be $1,641 million in 1999-00, a 2.8% increase over 1998-99, and $1,719 million in 2000-01, a 4.8% increase over 1999-00 (Table 1.1). If start-up funding for the Access to Opportunities Program (ATOP) is removed from the calculation, the increase in 2000-01 is 3.2% rather than 4.8%.

- Despite the increases mentioned above, in constant dollar terms grants in 2000-01 are $542 million, or 24%, lower than in 1992-93 (Table 1.1).

- Tuition fee revenue has increased dramatically since 1987-88 (Table 1.1). Beginning in 1996-97 universities were required to set aside for increased student financial assistance a fixed proportion (10% in 1996-97, 30% each year thereafter) of the additional tuition fee revenue attributable to rising tuition fee rates. This "set-aside" is projected to be $100 million in 1999-00.

- Provincial operating grants per student decreased by 28% in constant dollar terms between 1987-88 and 2000-01, while tuition fee revenue per student increased by 115% (Table 1.2).

- Federal government support of Ontario post-secondary education, through Established Program Financing (EPF) and the Canada Health and Social Transfer (CHST), declined 14% in constant dollar terms between 1987-88 and 1999-00 (Table 1.3).

- Growth in Ontario's provincial budget and gross provincial product has out-paced funding to Ontario universities since 1987-88 (Table 1.4). Universities' share of the provincial budget has dropped from 4.2% in 1987-88 to 2.6% in 1999-00, and universities' share of gross provincial product (GPP) has likewise dropped from 0.64% to 0.43% (Table 1.5). If universities had maintained their 1987-88 percentage shares of provincial budget and GPP, university operating grants would have been $2,610 million and $2,430 million, respectively, in 1999-00, instead of the actual amount of $1,641 million.

- Ontario universities have increased their income from donations by 80% and from non-government grants and contacts by 164% in constant dollars since 1987-88 (Table 1.7).

Section 2 - Grants and Revenue: Jurisdictional Comparisons

- Ontario universities rank 9th out of the ten provinces in terms of the percentage of their *operating* income that comes from provincial grants, 2nd in terms of fees, and 4th in terms of all other sources of income (Table 2.1).

- Ontario universities rank 5th out of the ten provinces in terms of the percentage of their *total* income that comes from federal grants, 9th in terms of provincial grants, 2nd in terms of fees, and 1st in terms of all other sources of income (Table 2.2).

- Ontario government funding for universities remained 9th out of the ten provinces on a per *student* basis in 1999-00 (Table 2.3), 10th out of ten on a per *capita* basis (Table 2.4), and 10th out of ten on a per *personal income* basis (Table 2.5). Provincial funding to Ontario universities would have to increase by about $550 million to reach the funding per capita level of the other nine provinces, and by about $275 million to reach the funding per student level.

- In terms of revenue per student and expenditures per student, Ontario universities are 28% to 30% below public universities in competitor US states according to 1996-97 and 1997-98 data (Tables 2.6 and 2.7).

- Over the past four years -- between 1995-96 and 1999-00 -- state support for post-secondary education increased by an average of 28% in US states, while in Ontario provincial support for post-secondary education declined by 8%. Ontario ranked 59th out of the 60 Canadian and US jurisdictions in terms of percentage change in funding over the four-year period (Table 2.8).

Section 3 - Comparisons with Other Sectors

- Constant dollar per client expenditures have declined in Ontario's post-secondary education sector over the past ten years, but have increased by 8% for elementary and secondary schools and by more than 60% for hospitals (Table 3.1).

- Compared to other Canadian provinces, Ontario is 20% above the average in terms of hospital spending per client, 17% above the average in terms of school spending, but 8% below the average in terms of university spending (Table 3.2).

Section 4 - Research

- Research infrastructure at Ontario universities is in decline. Since 1987-88, sponsored research expenditures have grown by 56% in constant dollars, but operating expenditures, which include support for research activities, have grown by only 10% (Table 4.1).

- At its inception in 1987-88, the Ontario government's Research Overhead/ Infrastructure Envelope represented 20% of peer-adjudicated federal research grants. Today, it represents only about 15% (Table 4.2).

- Over the past ten years, Ontario's share of sponsored research funding from the three major federal granting agencies has decreased from almost 39% to just over 37% (Table 4.3).

Section 5 - Tuition Fees

- Tuition fees for Bachelor of Arts programs in Ontario universities have increased from about $1,500 per year to about $3,800 per year over the past ten years (Table 5.2).

- Within Canada, only Nova Scotia has higher Bachelor of Arts tuition fees than Ontario (Table 5.3).

- Tuition and required fees, expressed as a percentage of personal income, are slightly lower in Ontario universities than in public universities in the Great Lakes states (Table 5.4).

Section 6 - Student Financial Assistance

- Provincial government spending on financial assistance for Ontario post-secondary students has risen from about $180 million in 1987-88 to almost $800 million in 1999-00 (Table 6.1). It is important to keep in mind that the Ontario government made a policy decision to discontinue grants in 1993-94.

- The amount per student that Ontario universities spent on scholarships and bursaries increased by more than 150% between 1987-88 and 1997-98. Expenditures on scholarships and bursaries have increased from 1.6% of total university expenditures to 2.9% (Table 6.2).

- OSAP loan default rates are considerably lower for university students than for students in other sectors of post-secondary education (Table 6.3).

Section 7 - University Infrastructure

- The price of library books and periodicals is increasing more rapidly than library acquisition expenditures, which in turn are increasing more rapidly than total library expenses, which in turn are increasing more rapidly than enrolment (Table 7.1).

- The percentage of university capital expenditures funded by the Ontario Ministry of Training, Colleges and Universities declined from 55% in 1987-88 to less than 30% in 1996-97 and 1997-98 (Table 7.2). Capital funding from MTCU jumped dramatically in 2000-01 as a result of the SuperBuild program.

- University capital expenditures per student over the past ten years have been about 30% lower in Ontario than in the rest of Canada (Table 7.3).

- On a national scale, Ontario also ranks below average in terms of a number of other capital and plant related indicators (Table 7.4).

- Ontario universities are operating with only 86% of required space, as measured against established space standards (Table 7.5).

Section 8 - Faculty and Staff

- The number of faculty and staff at Ontario universities declined 10% between 1987-88 and 1998-99, while enrolment has increased 13% (Table 8.1).

- Total faculty and staff salaries, in terms of constant dollars, have also not kept pace with increasing enrolment (Table 8.2).

- Statutory employee benefit costs rose dramatically between 1987-88 and 1997-98 (Table 8.3).

- Ontario universities have the highest ratio of full-time equivalent (FTE) students to full-time faculty in the country (Table 8.5), as well as the highest ratio of FTE students to FTE faculty (Table 8.6).

Section 9 - Education and Employment

- Unemployment rates for those with a university degree are consistently and considerably lower than for those without a university degree (Table 9.1).

- The percentage of jobs in Ontario held by university graduates has increased from 17.5% in 1990 to 22.8% in 1999 (Table 9.2).

- Average personal income increases substantially with level of educational attainment (Tables 9.4 and 9.5).

1999-00	$1,640,581	$1,154,891	$2,795,472	$1,673,068	$1,177,760	$2,850,828
2000-01	$1,718,514	$1,213,329	$2,931,843	$1,718,514	$1,213,329	$2,931,843

Notes:

Operating Grants:

See Appendix H for details regarding 1998-99 to 2000-01.

Tuition Fees:

Affiliated and federated colleges included.

Estimate of 1998-99 tuition fee revenue reflects combined impact of 9.7% increase in tuition fee rates according to MTCU survey, and 0.6% increase in FTE enrolment.

Estimate of 1999-00 tuition fee revenue reflects combined impact of 10.3% increase in tuition fee rates according to MTCU survey, and 3.1% increase in FTE enrolment.

Estimate of 2000-01 tuition fee revenue reflects combined impact of 2.0% increase in tuition fee rates according to MTCU policy, and 3.0% increase in FTE enrolment.

Beginning in 1996-97 universities were required to set aside for increased student financial assistance a fixed proportion (10% in 1996-97, 30% each year thereafter) of the additional tuition fee revenue attributable to rising tuition fee rates. The "set-aside" was $11.8M in 1996-97, $32.5M in 1997-98, $69.0M in 1998-99, and is projected to be $100.3M in 1999-00.

CPI: Inflation rate estimated to be 1.9% in 1999-00 and 2.0% in 2000-01.

Notes: All figures in $000s.
Constant dollars are in terms of 1999-00 dollars.
CPI: 1999-00 inflation rate estimated to be 1.9%.
CAP and EPF targeted-funding was replaced by CHST block-funding in 1996-97.

CAP - Canada Assistance Plan - supported Social Welfare.
EPF - Established Programs Financing - supported health and post-secondary education, with specified amounts for each.
CHST - Canada Health and Social Transfer - supports social welfare, health, and post-secondary education, without specified amounts for each.

* CHST funding for Ontario post-secondary education estimated by pro-rating total CHST funding for Ontario according to the same proportions of CAP and EPF funding for Ontario post-secondary education in 1995-96.

Sources: Established Programs Financing, and Canada Health and Social Transfer, Canada Department of Finance, Federal-Provincial Relations Division

Notes:
Corresponding Figure 2.3 displays constant 1999-00 dollars, not actual dollars.

Sources:
Operating Grants:
To 1989-90: Interprovincial Comparisons of University Financing, Tripartite (MET, COU, OCUA) Committee on Interprovincial Comparisons, April 1992. Last Tripartite report.
1990-91 onwards: The year-to-year percentage changes in provincial operating grants contained in the Financial Reports of the Canadian Association of University Business Officers were used to estimate provincial operating grants for the purposes of this interprovincial comparison. See Appendix B for a more complete description and example of the methodology. The 1998-99 and 1999-00 estimated percentage changes were obtained from the Public Accounts and Expenditure Estimates of Ontario, and, for other provinces, the Association of Universities and Colleges of Canada.
Enrolment:
To 1989-90: Interprovincial Comparisons of University Financing, Tripartite (MET, COU, OCUA) Committee on Interprovincial Comparisons, April 1992. Last Tripartite report.
1990-91 onwards: The year-to-year percentage changes in FTE enrolment provided by Statistics Canada were used to estimate FTE enrolment for the purposes of this interprovincial comparison. See Appendix B for a more complete description and example of the methodology. 1999-00 estimated percentage changes were obtained from MTCU and AUCC.

	11 States	$5,861	$9,027	$3,421	$631	$1,783	$303	$21,026

Notes: The American states selected are the 8 Great Lakes states plus the 3 other states with the largest populations. These 11 states collectively have more than half the population of the United States.
Ontario FTE enrolment is based on eligible-for-funding plus ineligible-for-funding students.
US dollars are converted into Canadian dollars by multiplying by OECD Purchasing Power Parity (PPP) index: 1.19 for 1996 and 1.17 for 1997.

Sources: USA - Integrated Postsecondary Education Data System, National Center for Education Statistics, US Department of Education.
Ontario - COFO-UO, Financial Report of Ontario Universities.

Method: Universities in Ontario and each US state are placed in 2 groups: a group of research/doctoral level universities and a group of master's/bachelor's universities. After calculating the ratio of revenue per FTE enrolment for each group, the ratios are combined according to the share of FTE enrolment in each group *in Ontario*. In this way, each US state is normalized to Ontario's enrolment profile.

Notes: Canada — Data is based on funding for universities only.
British Columbia data excludes 3 university colleges that were added to the CAUBO dataset in 1997-98, creating a significant discontinuity in the time series.

USA — Data is based on funding for universities, community colleges, and student support.
"11 Selected States" are the 8 Great Lakes states plus the 3 other largest population states. These states collectively have more than half the population of the United States.

Sources: Canada — 1994-95 to 1997-98: Statistics Canada, Canadian Association of University Business Officers (CAUBO), Financial Statistics of Universities and Colleges, various years.
1998-99 to 1999-00: Based on percentage changes reported by AUCC in Aug/Sep 1999 issue of "University Affairs," except for Ontario which is based on percentages changes as calculated from Ontario Public Accounts and Ontario Expenditure Estimates.

USA — State Higher Education Executive Officers, State Higher Education Appropriations, and Financing Higher Education. Grapevine, A National Database of Tax Support for Higher Education, Center for Higher Education & Educational Finance.

1998-99		$182,965	$27,477	15.0%
1999-00		$179,881	$27,752	15.4%

Notes: The NSERC+SSHRC+MRC three-year average is slipped two years. For example, the 1998-99 average is based on 1994-95, 1995-96 and 1996-97 data. This methodology is used by MTCU to determine the share of ROIE that each Ontario university receives. The ROIE began in 1987-88.

1998-99	0%	$2,386	48.83%	$3,551	$26,235	13.5%	n.a.	
1999-00	0%	$2,386	62.36%	$3,874	n.a.		n.a.	

Notes: Fees are for full-time Canadian students.
The Maximum Discretionary Component (MDC) is expressed as a percentage of the Formula Fee Rate.
Maximum Tuition Fee (MTF) = Formula Fee Rate * (1 + MDC).
Partial deregulation of tuition fees began in 1996-97. For 1996-97 and thereafter, the MDC in this table represents the average, across ALL programs, allowed for each institution. Each institution has some flexibility to set tuition fee rates for individual programs above this MDC, as long at their institutional average, weighted by enrolment, does not exceed this MDC.
Average personal and family income are for Ontario.

Notes: Minimum, average, and maximum tuition fees are taken across all Ontario universities that offer the program. Fees are for full-time Canadian students. Average columns are not weighted by enrolment of individual institutions. University of Waterloo BEng tuition fee includes coop fee for 1989-90 through 1994-95, and excludes coop fee for 1995-96 onwards.
1999-00 inflation rate is estimated to be 1.9%.

Sources: BA and BEng tuition fees: Tuition and Living Accomodation Costs at Canadian Universities, 1999-00, Statistics Canada.
MA tuition fees: COU Annual Fee Survey Report. COU Survey began 1996-97. Previous MA tuition fees, available only from Statistics Canada, were not consistently reported from institution to institution.

1999-00		$795,923,500	439.2	$795,923,500	326.5

Notes:
(1) Policy change to discontinue grants began in 1993-94.
(2) Ontario Student Opportunity Trust Fund began in 1996-97, but is excluded from this table. The government's commitment to OSOTF was $39M in 1996-97, $110M in 1997-98, $90M in 1998-99, $56M in 1999-00.

- Figures include OSAP support for students in all three sectors: universities, colleges, and private vocational schools.
- 1999-00 inflation rate is assumed to be 1.9%.

1999-00	$479,560													

Notes: Funding: Includes Ontario portion of Canada-Ontario Infrastructure Works Program (COIWP) for 1994-95 and onwards. The 1999-00 funding figure is comprised of $41.7M for Facilities Renewal Program, $15.4M for previously approved projects, $365.0M for university-only SuperBuild projects, $57.4M attributable to universities for joint university-college SuperBuild projects, and a very amount for the Ontario portion of COIWP.
Expenditures: General plus restricted funds. Includes affiliated and federated colleges.
Constant dollars are expressed in terms of 1997-98 dollars based on OUNSPI Renovation index.

Sources: Funding: Ministry of Training, Colleges and Universities, Universities Branch.
Expenditures: COFO-UO, Financial Report of Ontario Universities.

Source: COU Triennial Inventory of Physical Facilities of Ontario Universities.

Notes: Space is measured in net assignable square meters.
"Generated Space" is calculated using established space standards -- "COU Building Blocks" -- which depend on category of space, program classification, and input measures (FTE enrolment, FTE faculty, FTE graduate students, weekly student contact hours, FTE non-academic staff, and library volumes).
"Other Space" is an aggregate of the following space categories: academic departmental offices and related space, athletic and recreational space, food services, bookstore and other merchandising facilities, plant maintenance, administrative office and related space, audio-visual and television facilities, central services, health service facilities, common use and student activity space, and assembly and exhibition space.
Excluded are non-assignable space as well as the following non-formula space categories: residential space, animal space, other university facilities, and health science clinical facilities.

Notes: Because counts of Full-Time Faculty for OCAD are not available from Statistics Canada, in order to be consistent all data in this table are based on the 17 Ontario universtities, with OCAD excluded. See notes to Table 8.5 for details on the methodology for counting full-time faculty. Because estimates of full-time faculty counts are used to compensate for occasional unreported data by specific universities in specific years, the counts in this table are, for some years, higher than those provided in COU's annual "Facts and Figures" report, where unreported counts are not estimated. 1998-99 full-time faculty is an estimate based, according to a COU survey, on an 0.9% increase from 1997-98.
Due to survey methodologies, the FTE Faculty and Staff column (the sum of the three previous columns) does not represent all faculty and staff employed by Ontario universities.
FTE Enrolment: COU estimate of Fall, eligible + ineligible, undergraduate + graduate, full-time equivalent enrolment (see Appendix A).

Sources: Full-time faculty: Statistics Canada, Salaries and Salary Scales of Full-time Teaching Staff at Canadian Universities.
Part-time faculty: Council of Ontario Universities, Survey on Faculty Complements.
Non-academic staff: Council of Ontario Universities, Survey on Non-academic Employees.
Full-time and part-time enrolment: Ministry of Training, Colleges and Universities.

1998-99					22.0	142.0	19.4	111.0

Notes:

Elementary & Secondary Schools: Average class size. Special education classes are excluded. Figures are not available before 1989-90 for elementary and before 1993-94 for secondary. Figures are also not available for 1998-99. However, in 1998-99, 94% of school boards met the provincial target of average class size of 25 or less for elementary and 22 or less for secondary.
Community Colleges: Full-time post-secondary enrolment / full-time academic employees.
Universities: Full-time enrolment / full-time faculty. Based on the 17 Ontario universities, with OCAD excluded, since full-time faculty counts are not available for OCAD from Statistics Canada. See notes to Table 8.5 for details on the methodology for counting full-time faculty. 1998-99 full-time faculty is an estimate based, according to a COU survey, on an 0.9% increase from 1997-98.
Indices: Relative to 1993-94, the first year for which all four indicators are available.

Sources:

Elementary & Secondary Schools: Ministry of Education.
Community Colleges: Ministry of Training, Colleges and Universities.
Universities: Enrolment from Ministry of Training, Colleges and Universities. Faculty from Statistics Canada.

Canada	Ratio	16.4	16.6	16.8	17.0	17.9	18.2	18.3	18.4	18.5	19.2	19.2

Notes:

Student / faculty ratios are based on a set of 48 "core" universities in Canada, the same 48 universities that are included in Maclean's magazine's annual ranking of Canadian universities.

FTE enrolment = full-time enrolment + (part-time enrolment) / 3.5.

Full-time faculty counts include all teaching ranks, and medical and dental teaching staff. Excluded are part-time teaching staff, senior administrators, staff on leave of absence, visiting professors, and staff not on regular pay scale. A change in in the definition of full-time faculty by Statistics Canada in 1991-92 caused the number of full-time faculty to drop by 350 (2.42%) in Ontario and by 994 (2.66%) in Canada in that year. COU estimates of full-time faculty counts are used to compensate for occasional unreported data by specific universities in specific years in order to provide consistent and comparable student / faculty ratios. No full-time faculty counts are currently available for Quebec universities for 1997-98; the assumption made is that the 1997-98 count is the same as was reported for Quebec for 1996-97.

Sources:

Enrolment: Statistics Canada.

Full-time faculty counts: Statistics Canada, Salaries and Salary Scales of Full-Time Teaching Staff at Canadian Universities and Colleges.

Notes:

Student / faculty ratios are based on a set of 48 "core" universities in Canada; the same 48 universities that are included in Maclean's magazine's annual ranking of Canadian universities.

FTE enrolment = full-time enrolment + (part-time enrolment) / 3.5.

FTE faculty cannot be obtained directly due to lack of data on part-time faculty. Rather, FTE faculty are estimated according to the equation: FTE faculty = (total academic ranks salaries + total instruction & research salaries) / (average salary of full-time faculty). Average salaries are based on the set of full-time faculty that includes all teaching ranks, and medical and dental teaching staff. Excluded are part-time teaching staff, senior administrators, staff on leave of absence, visiting professors, and staff not on regular pay scale. COU estimates of average salaries are used to compensate for occasional unreported data by specific universities in specific years in order to provide consistent and comparable student / faculty ratios. No average salary figures are currently available for Quebec universities for 1997-98 and therefore the number of FTE faculty cannot be calculated. The assumption made is that the number of FTE faculty in 1997-98 is the same as was calculated for Quebec for 1996-97.

Sources:

Enrolment: Statistics Canada.

Full-time faculty average salaries: Statistics Canada, Salaries and Salary Scales of Full-Time Teaching Staff at Canadian Universities and Colleges.

Total faculty salaries: Statistics Canada, Canadian Association of University Business Officers, Financial Statistics of Universities and Colleges.

Notes: Educational attainment is highest level of schooling completed. Salary figures are based on full year, full time workers age 15+.
Professional Degrees are medicine, dentistry, veterinary medicine, and optometry. Nine provinces includes northern territories.

Appendices

APPENDIX A

NOTES ON ENROLMENT

The basic approach in this *Resource Document* is to examine the university enterprise from a global perspective. Therefore, all enrolment figures are based on total fall term undergraduate plus graduate enrolment, regardless of whether the students are eligible or ineligible for Ontario government formula-funding.

Ontario-Only Tables

- The source of full-time and part-time enrolment figures is the Ontario Ministry of Training, Colleges and Universities (MTCU).

- **Table 8.4** uses full-time enrolment.

- **Tables 1.2, 3.1, 6.2, 7.1, 8.1 and 8.2** use FTE enrolment, calculated according to the equation:

  FTE enrolment = full-time enrolment + (part-time enrolment / 3.5). [1]

- **Tables 1.2, 3.1, 6.2, 7.1, and 8.2** are based on Ontario's 17 universities, the Ontario College of Art and Design (OCAD), and Dominicain College. OCAD and Dominicain receive government support from the Universities Branch of MTCU.

- **Tables 8.1 and 8.4** are based solely on Ontario's 17 universities. OCAD and Dominicain are excluded because these tables include counts of full-time faculty, and Statistics Canada does not collect such counts for OCAD and Dominicain.

Comparisons with Other Provinces

- The source of full-time and part-time enrolment figures is Statistics Canada.

- **Tables 7.3, 8.5 and 8.6** use FTE enrolment calculated according to equation [1].

- For **Table 7.3**, enrolment figures are standard provincial totals published by Statistics Canada. Statistics Canada's standard provincial total for Ontario is based on the 17 universities, Dominicain College, the Royal Military College, Redeemer College, and the Ontario Bible College and Theological Seminary. OCAD is excluded.

- For **Tables 8.5 and 8.6**, enrolment figures are based on a set of 48 "core" universities in Canada, the same 48 universities that are included in Maclean's

magazine's annual ranking of Canadian universities. This set of universities is considered to be appropriate for the calculation and comparison of student/faculty ratios, the focus of these two tables. For Ontario, only the 17 universities are included in the "core" set.

- **Table 2.3** – FTE enrolment figures prior to 1990-91 are taken from the annual reports of the Tripartite (MTCU, COU, OCUA) Committee on Interprovincial Comparisons of University Financing. The original source for the Committee's data was Statistics Canada. The data represents eligible and ineligible fall term enrolment, and FTE enrolment is calculated according to equation [1]. Adjustments have been made to Statistics Canada's standard provincial totals for college-to-university transfer students and for interprovincial transfer students. Interprovincial transfer students are those who are registered in a program at an out-of-province university but are funded by their home province's government. Enrolment figures correspond to the set of universities used for Table 7.3. For the methodology used to calculate FTE enrolment commencing in 1990-91, see Appendix B.

- **Table 3.2** – FTE enrolment is derived the same way as in Table 2.3, with the exception that the adjustment for interprovincial transfer students is not done. Enrolment figures correspond to the set of universities used for Table 7.3. For the methodology used to calculate FTE enrolment commencing in 1990-91, see Appendix C.

Comparisons with American States

- **Table 2.6 and 2.7** – FTE enrolment for Ontario's 17 universities is based on eligible and ineligible fall term enrolment figures obtained from MTCU. OCAD and Dominicain are excluded. In these tables, FTE enrolment is calculated according to the equation:

  FTE enrolment = full-time enrolment + (part-time enrolment / 3).

  The divisor 1/3 is comparable with the way FTE enrolment is calculated in the USA. The source for US enrolment data (fall term, full-time and part-time) is the Integrated Postsecondary Education Data System (IPEDS) published by the National Center for Education Statistics of the U.S. Department of Education.

APPENDIX B

METHODOLOGY FOR ESTIMATING EACH PROVINCE'S UNIVERSITY OPERATING GRANTS PER FTE STUDENT

1989-90 and Before:	Actual "Net Total Operating Grants" were divided by actual "Net Total Enrolment". These data were sourced from the Tripartite Committee on Interprovincial Comparisons, April 1992, which was the last year of its publication.
1990-91 and After:	Estimates of annual percent change were applied against the last actual figures of 1989-90.

EXAMPLE: ONTARIO

Estimate of Ontario Operating Grants to Universities per FTE Student in 1990-91 (post Tripartite Committee): $6,772

CALCULATION:

PART 1:	OPERATING GRANTS	(For Tables 2.3, 2.4 and 2.5)	
1989-90 -	Last year Tripartite Committee reported actual Net Total Operating Grants for Ontario:		$1,599,386,000
1989-90 -	Ontario operating grants reported in CAUBO:		$1,724,504,000
1990-91 -	Ontario operating grants reported in CAUBO:		$1,869,822,000
1989-90 to 1990-91	percent change using CAUBO data (*):		8.43%
1990-91 -	Estimated Net Total Operating Grants = $1,599,386,000 * 1.0843		$1,734,160,738
PART 2:	FTE ENROLMENT	(For Table 2.3)	
1989-90 -	Last year Tripartite Committee reported actual Net Total Enrolment for Ontario:		247,053
1989-90 -	Ontario total enrolment reported by Statistics Canada:		237,876
1990-91 -	Ontario total enrolment reported by Statistics Canada:		246,577
1989-90 to 1990-91	percent change using Statistics Canada data:		3.66%
1990-91 -	Estimated Net Total Enrolment = 247,053 * 1.0366		256,090
PART 3:	OPERATING GRANTS PER FTE ENROLMENT	(For Table 2.3)	
1990-91 -	Estimated Net Total Operating Grants		$1,734,160,738
	Divided by Estimated Net Total Enrolment		256,090
	Equals Ontario Operating Grants to Universities per FTE Student		$6,772

(*) 1990-91 to 1997-98: For each of these years the annual percent change was calculated from the operating grants reported in the Financial Reports of the Canadian Association of University Business Officers.
1998-99 to 1999-00: The annual percent change to operating grants for these two years were obtained from the Public Accounts and Expenditure Estimates of Ontario, and, for other provinces, the Association of Universities and Colleges of Canada.

APPENDIX C

METHODOLOGY FOR ESTIMATING EACH PROVINCE'S UNIVERSITY OPERATING EXPENDITURES PER FTE STUDENT

1989-90 and Before:	Actual "Total Operating Expenditures" were divided by actual "Enrolment - Provincial Institutions (excluding interprovincial transfers)". These data were sourced from the Tripartite Committee on Interprovincial Comparisons, April 1992, which was the last year of its publication.	
1990-91 and After:	Estimates of annual percent change were applied against the last actual figures of 1989-90.	
EXAMPLE: ONTARIO		
Estimate of Ontario Total University Operating Expenditures per FTE Student in 1996-97 (post Tripartite Committee):		$9,876
CALCULATION:	(For Table 3.2)	
PART 1:	OPERATING EXPENDITURES	
1989-90 -	Last year Tripartite Committee reported actual Total Operating Expenditures for Ontario:	$2,131,704,000
1989-90 -	Ontario operating expenditures reported in CAUBO:	$2,254,667,000
1996-97 -	Ontario operating expenditures reported in CAUBO:	$2,710,446,000
1989-90 to 1996-97	percent change using CAUBO data *:	20.21%
1996-97 -	Estimated Total Operating Expenditures = $2,131,704,000 * 1.2021	$2,562,626,135
PART 2:	FTE ENROLMENT	
1989-90 -	Last year Tripartite Committee reported actual Net Total Enrolment for Ontario:	247,084
1989-90 -	Ontario total enrolment reported by Statistics Canada:	237,876
1996-97 -	Ontario total enrolment reported by Statistics Canada:	249,808
1989-90 to 1996-97	percent change using Statistics Canada data:	5.02%
1996-97 -	Estimated Net Total Enrolment 247,084 * 1.0502	259,478
PART 3:	OPERATING EXPENDITURES PER FTE ENROLMENT	
1996-97 -	Estimated Total Operating Expenditures	$2,562,626,135
	Divided by Estimated Net Total Enrolment	259,478
	Equals Ontario Total University Operating Expenditures per FTE student:	$9,876

* 1990-91 to 1996-97: For each of these years the annual percent change was calculated from the operating expenditures reported in the Financial Reports of the Canadian Association of University Business Officers.

APPENDIX D

ONTARIO UNIVERSITY NON-SALARY PRICE INDEX (OUNSPI) AND CANADA CONSUMER PRICE INDEX (CPI) 1980-81 to 1999-00

	OUNSPI	CPI	Annual Percent Increase OUNSPI	CPI
1980-81	100.0	100.0	12.2	11.2
1981-82	113.9	112.1	13.9	12.1
1982-83	125.6	122.7	10.2	9.5
1983-84	131.2	129.0	4.5	5.1
1984-85	139.1	133.9	6.0	3.8
1985-86	145.1	139.4	4.4	4.1
1986-87	149.2	145.3	2.8	4.2
1987-88	154.4	151.5	3.5	4.3
1988-89	158.7	157.9	2.8	4.2
1989-90	162.1	166.2	2.1	5.3
1990-91	164.7	174.7	1.6	5.1
1991-92	166.7	181.7	1.2	4.0
1992-93	175.0	184.7	5.0	1.7
1993-94	179.0	187.1	2.3	1.3
1994-95	193.8	188.3	8.3	0.6
1995-96	205.5	192.1	6.0	2.0
1996-97	203.1	195.5	-1.2	1.8
1997-98	207.8	198.0	2.3	1.3
1998-99	209.9	200.0	1.0	1.0
1999-00	213.9	203.8	1.9	1.9

Notes:

CPI and OUNSPI are relative to base year 1980-81 = 100.0.
1999-00 CPI is an estimate.
1998-99 and 1999-00 OUNSPI are estimates (based on CPI).

The Ontario University Non-Salary Price Index was developed in 1978 to provide "a more sensitive tool to assist in measuring the likely impact of inflation on non-salary expenditure, and a more accurate measure of the extent of inflationary erosion between any two years. (*) "

(*) - Council of Ontario Universities, "Ontario University Non-Salary Price Index," February 1978.
